🐙 <https://github.com/devakchain>

MERN Stack Developer with real-world experience in building fast, scalable web apps using React, Node.js, and MongoDB.

---

## Projects

### E-commerce App – MERN Stack Storefront

*shopecoommerce.netlify.app*

- Full-stack MERN e-commerce app with JWT auth, protected routes, product filtering, cart, order history, and responsive UI.

### Sam-Movie – Movie Listing App

*sam-movie.netlify.app*

- React Movie App that fetches data from a public API with search, filters, pagination, loading states, and theme toggle.

### Task-Trek – Task Management App

*task-trek.netlify.app*

- Task Manager App with drag-and-drop UI in React. Supports task CRUD with localStorage and a clean, user-friendly interface.

## Education

### Netanya Academic College

*B.Sc. – Computer Science (First Year Student)*
